**IGOR SVIBILSKI**, according to his "publicist" Olga Svibilski, has once again gathered significant honors. This time Igor is among the winners of the **2010 International Photography Awards**. He received two Honorable Mentions for his series "Age of Loneliness" in two non-professional categories: Fine Art and People.

This sounds like a very high honor, indeed. Congratulations Igor!

**OPENS MONDAY, SEPT. 13!**

**CARL GEISLER**, announced the upcoming opening of "Hot Rods and Bicycles," an exhibit of automobile and bicycle photos. Carl, no stranger to both types of vehicles, has created sensuous, sensitive imagery from what others might see simply as hardware.

**FRANK CHEH** is the second exhibitor in the same Gallery 14 show. His collection "Yellow Line Art" appears aptly named for the creative use of painted portions of road surfaces, (at least according to our best guess from the sample images!).

(NOTE: Titles of the above four images are temporary gifts from the editor.)

This Gallery 14 exhibit promises unusual, interesting, and innovative photography.

**Be at the opening this** Friday Septemeber 10. [MAP](#)

Congratulations, Martha and Frank, on this display of your beautiful images and unique creativity!  
See you at the opening.

## **BIG Simplification -- Submitting Images to Members News**

I've gone around the sun enough times to have learned that people generally get less than they ask for. Despite that, and fully cognizant of the risks involved, I'm asking for *less help* from image contributors in the hope of getting more participants. If the scheme below does not work for any reason, we'll go back to the old way, where I ask for more help in image prep, and most of you provide it. Read on ...

### On a trial basis:

Before sending your images to the editor

1) Rename your jpegs in the format: **Lastname\_Firstname\_Title.jpg**

That's it!

One small step is all you have to take to garner the fame and prestige available through the PPC Newsletter and web site! No special preparation is needed. Make your pictures look as you like of course, but no need to resize, add canvas, or label. Are you smiling?

This magnanimous gesture comes about not out of total daftness, but because I've developed a degree of automation that simplifies resizing and adding canvas to several images at once. I still have to manually type in your name and image title at the bottom, but *when you rename image files as I've asked*, you help me do that efficiently. Thank you.

If you don't know how to rename your image files, drop me an email at [editor, Members News -The Newsletter](#)

**Save this issue for reference.** It may take a while for our web page to reflect these instructions.
